

Movian - Bug #1136

External subtitles not listed when playing video (UPnP)

08/19/2012 06:04 PM - Philipp Grosswiler

Status:	Fixed	Start date:	08/19/2012
Priority:	High	Due date:	
Assignee:	Andreas Smas	% Done:	100%
Category:	UPnP & DLNA	Estimated time:	0.00 hour
Target version:	4.0	Platform:	PS3
Found in version:	showtime-3.99.508-g7fa5fb8		
Description			
Since the big re-design external subtitles won't be loaded via UPnP. If the subtitles are inside the MKV container it works, though. Please fix this issue as soon as possible as I am not able to watch movies with subtitles anymore when streamed via uPnP.

If you mark "Include all subtitlesfiles from dictory" it will work, but only if the movie dont contains any subtitles. At least i does for me

Unfortunately, that does not work for me. I already have that option set. If subtitles are embedded into the movie, then they will display correctly. But most of the time, especially with TV series, that is not the case and there is no way to use them at the moment over DLNA.

- Status changed from New to Accepted

- Target version set to 4.0

I think this is a problem with SRT files that start with UTF-8 or UTF-16 BOM markers.

At least it works fine for me from minidlna (except the BOM problem, that is)

Seems that the track is now loaded but it does not show up in the list of available subtitle tracks...

It's now working for me again, great work! I really enjoy your way of doing things. I will donate again
