

Movian - Feature #1802

RPI CEC and remote controls with limited number of buttons

Description			
It'd be nice if ST supports Stop quickly followed by Pause on remote control to act as Backspace Stop+Play - item menu etc.			
Some LG TV don't map return key to CEC and it's not possible to navigate in ST.

Revision dfad8fa0 - 01/03/2014 11:17 PM - Andreas Smas

rpi/CEC: Add a setting that allows STOP key to be used as a "prefix" key

Stop + Pause -> Back

Stop + Play -> Media info (when playing video)

Stop + << -> Item menu

Stop + >> -> Page menu

Stop + Select -> System log

Stop + Stop -> Stop

- Assignee set to Andreas Smas

In LG init:

```
action_type_t *btn_to_action256 = {  
[CEC_User_Control_Backward] = AVEC, // <<  
[CEC_User_Control_Forward] = AVEC // >>  
};
```

That can temporarily get LG owners very happy...
