

Movian - Bug #1926

cacheGet can't get from cachePut (cache corruption?)

02/05/2014 10:17 PM - Leonid Protasov

Status:	Invalid	Start date:	02/05/2014
Priority:	High	Due date:	
Assignee:	Andreas Smas	% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:	4.6		
Found in version:	Latest	Platform:	Linux
Description			
<p>Try rad.io plugin and you can see that clearly. Just open "Most wanted", play something then return back to home screen and open "Most wanted" again and try to play any station. Debug log will be flooding with:</p> <pre>Radio [ERROR]: Unable to open undefined -- File not found Radio [ERROR]: Unable to open undefined -- File not found Radio [ERROR]: Unable to open undefined -- File not found Radio [ERROR]: Unable to open undefined -- File not found Radio [ERROR]: Unable to open undefined -- File not found Radio [ERROR]: Unable to open undefined -- File not found</pre>			
<p>I beleive that is somehow related to https://showtimemediacenter.com/issues/1855</p>

- Status changed from New to Invalid

You can't JSON encode the stuff you put in the cache. It's JSON encoded by the cachePut function itself.
