

## Movian - Bug #2177

### Throbber is stopping working after searcher finished the search and you enter any result's folder (Any platform)

05/20/2014 05:24 PM - Leonid Protasov

<b>Status:</b>	Fixed	<b>Start date:</b>	05/20/2014
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Andreas Smas	<b>% Done:</b>	100%
<b>Category:</b>	User interface	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.8	<b>Platform:</b>	Linux
<b>Found in version:</b>	4.7.20		
<b>Description</b>			
Prerequisites - youtube plugin installed			
To reproduce:			
1. In searcher box enter 'test'			
2. When ST will display results - enter to Channels V3 for example.			
3. Return back to home screen - throbber is not working anymore.

#### Associated revisions

##### Revision 82cbb510 - 08/19/2014 01:42 PM - Andreas Smas

A slight workaround to fix problems with throbber when searching.

The root cause is the 'origin' link in pages that gets incorrectly relinked when a page is closed. Not 100% how to fix this but this workaround seems to do it for now

Fixes #2177

##### Revision a997a572 - 10/30/2014 03:41 PM - Andreas Smas

prop: Add new value type 'PROP' which is just a reference to another prop

Much more lightweight than prop\_link since this cannot be followed nor subscribed to indirectly

Also use this for the "openedFrom" navigator page property to avoid serious link/unlink problems causing some properties to lose their subscription binding

Fixes #2177

#### History

##### #1 - 05/20/2014 05:27 PM - Leonid Protasov

- Related to Bug #2117: Throbber stops working globally after page.redirect (All platforms) added

**#2 - 05/20/2014 07:22 PM - Leonid Protasov**

- Subject changed from *Throbber is stopping working after you enter to Channels V3 in searcher results (Any platform) to Throbber is stopping working after searcher finished the search and you enter any result's folder (Any platform)*
- Priority changed from *Normal to Immediate*

That is not youtube's fault. That is reproducible on any plugin. On first search - throbber starts spinning when searchers begin to work. And after searchers finished the work, throbber stops - that all is by design. But after you enter any result/folder - and return back - throbber is not working anymore globally...

**#3 - 05/20/2014 07:28 PM - Leonid Protasov**

With this simple code you reproduce that:

```
plugin.addSearcher("Throbber", logo,
function(page, query) {
  page.entries = 0;
  page.appendItem(PREFIX + 'throbber' , "directory", {
    title: "If you see me - throbber is not working anymore. Just return back to home and check :("
  });
  page.entries++;
});
```

**#4 - 05/20/2014 07:32 PM - Andreas Smas**

- Priority changed from *Immediate to Low*

**#5 - 07/17/2014 09:20 AM - Leonid Protasov**

- Priority changed from *Low to High*

This is nasty and long staying, so I'm raising it...

Is this bug the reason that Showtime locks up after a couple of searches on PS3?

**#7 - 08/18/2014 10:31 PM - Andreas Smas**

- Status changed from *New to Accepted*

I don't think so, but I can't be 100% sure

**#8 - 08/19/2014 01:45 PM - Andreas Smas**

- Status changed from Accepted to Fixed
- % Done changed from 0 to 100

Applied in changeset commit:git|82cbb510b30337bd2ded05e0074c7627d41ecf6d.

**#9 - 10/30/2014 09:06 AM - Andreas Smas**

- Status changed from Fixed to Accepted

Needs a better fix

**#10 - 10/30/2014 10:31 AM - Rob Koni**

I still encounter this bug, but I think it is in the YTS.re implementation. The search takes a very long time when YTS.re sources are being searched through, Youtube and the others are immediately presenting results, but this last one does not (at least on my config). Eventually, it locks up to total freeze, and then I have to hard reboot my PS3. Or it quits to XMB, I can't remember when it does that.

**#11 - 10/30/2014 03:44 PM - Andreas Smas**

- Status changed from Accepted to Fixed

Applied in changeset commit:git|a997a572c9e553faaeef8e396052e45a05e22cb1.
