

Movian - Feature #2492

Priority of metadata sources

01/15/2015 09:49 PM - Fredrik Lundmark

Status:	New	Start date:	01/15/2015
Priority:	Normal	Due date:	
Assignee:	Andreas Smas	% Done:	0%
Category:	Metadata	Estimated time:	0.00 hour
Target version:	5.2		

Description

At the moment metadata works as such that if I add a description to a movie and also apply bindVideoMetadata, my description will be overwritten by the latter.

```
page.appendItem("testplug" + ":video:" + "", "video",{title: 'John Wick', description: "Testing!"}).bindVideoMetadata({title: 'John Wick'});
```

Would it be possible (and desirable) to have all manually entered metadata take priority over the data you get from tmdb? So in this case I would get Testing! as description text, but also the rating, genre, year etc from tmdb.
