<b>Description</b>			
showtime.sleep function is missing now. I have fixed it and created pull request: <a href="https://github.com/andoma/showtime/pull/181">https://github.com/andoma/showtime/pull/181</a> Please accept it.			

### History

#### #1 - 01/28/2015 07:20 AM - Andreas Smas

- Status changed from New to Fixed
- Target version set to 4.10

I merged it but mostly for convenience.

During the sleep() the plugin is blocked (so all other invocations of the plugin will be blocked while sleeping).

Please consider using setTimeout() or setInterval() instead.

it is there, i use it in navi-x and somewhere else /plugin\_assets/redmine\_wiki\_extensions/images/smile.png But it's param changed from milliseconds to seconds...

showtime.sleep(1); that is 1 second delay.
