Found in version:	4.9.148		
Description			
<p>The mediatheken plugin gives no Access to the "ARD mediathek". It says "Invalid base value". Is it possible to inform the developer to fix it???</p> <p>And maybe is it possible to give a search feature to the plugins as it has yts and YouTube?</p>

I fixed it in version 0.1.2, but there seems to be a problem with the showtime webpage.

When I try to publish it, I just get "Invalid form authenticity token."

Search functionality may be added later, if I have time for it.

I've been messing a bit with the website, perhaps you can try again.
