Description			
<p>After the introduction of the FLAT theme I'm unable to select and install custom fonts. I browse to a folder where my fonts are, but there is no menu/option to assign the fonts for UI/subtitles.</p> <p>I have an instalation of Movian which used the old DEFAULT theme where I selected the fonts and once I upgraded to the latest (bleeding edge) the fonts work, but I can't change them.</p> <p>Tested on Sony Bravia AndroidTV and RPi2.</p>
