This would be a threat add-on for movian as well. It would add a lot of content to movian for all platforms. Please do consider.

Yes, great job with this plugin! I am still playing with it, but scrobbling support would be great as well. I have had a hard time finding working sources as of yet to fully test all functions at this time.

Which addons are compatible with this plugin for sources, maybe I don't have them added. I only have the online TV addon enabled right now.

At any rate great job and it looks awesome! Thanks to both of you for all your great work, always appreciated!!!
