

Movian - Feature #3275

I want to maintain filmezz.eu plugin in the future

Target version:			

Description

Many people asked me to maintain the hungarian filmezz.eu plugin, because iprot the plugin's creator not update it anymore. (I can't able to contact with iprot.)

I updated it some times and it is downloadable as a zip file, but android users can't able to install and use zip plugins.

It would be good and easier if it will be available the updated version through movian directly.

This is the hungarian forum link: https://itcafe.hu/tema/movian/hsz_1-200.html

I uploaded the updated plugin here in the attachment.

- Status changed from New to Fixed

I have changed so you are the plugin owner now. You should be able to update the plugin from it's page.

Go to plugin tab, press "My Pugins" in the right bar and you're good to go
