

Movian - Bug #3332

Add mimetypes for M3U8 and TS

12/21/2017 08:21 PM - Leonid Protasov

Status:	New	Start date:	12/21/2017
Priority:	High	Due date:	
Assignee:	Andreas Smas	% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:	5.2	Platform:	Linux
Found in version:	5.0.494		
Description			
<p>Currently movian is not aware of M3U8 mimetypes and you often need to specify hls: in urls. Also it reports as unsupported mimetype as you add it to videoparams.</p> <p>application/x-mpegURL application/vnd.apple.mpegURL</p> <p>as specified in https://developer.apple.com/library/content/documentation/NetworkingInternet/Conceptual/StreamingMediaGuide/DeployingHTTPLiveStreaming/DeployingHTTPLiveStreaming.html</p> <p>also .ts streams have the mimetype video/MP2T</p>
