

## Movian - Bug #3333

### deviceId is NaN if plugin's URI was called by bookmark

12/23/2017 12:04 PM - Leonid Protasov

<b>Status:</b>	New	<b>Start date:</b>	12/23/2017
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Andreas Smas	<b>% Done:</b>	0%
<b>Category:</b>	General	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	5.2	<b>Platform:</b>	Linux
<b>Found in version:</b>	5.0.494		
<b>Description</b>			
Plugin exposes the URI:			
<pre>plugin.addURI(PREFIX + "play:(.*)" : (.*)" : (.*)", function(page, url, title, referer) {   showtime.print('Device Id is NaN here :(' + showtime.deviceId); });</pre>			
If play is called outside the plugin (by bookmark or another plugin for example) deviceId isn't available.			

### History

#### #1 - 01/07/2018 12:29 PM - Leonid Protasov

- Subject changed from *showtime.deviceId is NaN if plugin's URI was called by bookmark* to *deviceId is NaN if plugin's URI was called by bookmark*

#### #2 - 01/07/2018 12:35 PM - Leonid Protasov

```
new page.Route('test:(.*)', function(page) {
  print('DevId: ' + Core.deviceId);
});
```

Call it like test from unified search box and you will get empty result `/plugin_assets/redmine_wiki_extensions/images/sad.png`
