

Movian - Feature #955

Manually resetting the video playback position

04/27/2012 11:51 AM - Philipp Grosswiler

Status:	Fixed	Start date:	04/27/2012
Priority:	Normal	Due date:

Category:	Video playback	Estimated time:	0.00 hour
Target version:	4.0		

Description

It is possible in Showtime to save the last position of a video, but if you want to start the video from the beginning, there is no easy option to do that. Especially on PS3 it would be nice to have a button assigned that starts the playback from beginning instead of the last saved position.

History

- *Category set to Video playback*

#2 - 08/12/2012 11:36 PM - Andreas Smas

- *Status changed from New to Fixed*

- *Target version set to 4.0*

Starting with 3.99.4xx -something. I can't remember which version exactly

There is an option to "Play from beginning" in the item menu (Square button when a video item is focused)
